

WOODBROOK LIMOUSIN FARMS

3rd Eastern Regional Limousin Sale

Saturday, October 17 - Noon

Woodbrook Limousin Farms Sale Facility • Abingdon, Virginia

Proud Sale Host:

EDGE *Livestock*

Joel Edge | 319/540-1731
edgelivestock@yahoo.com

Dear Limousin Friends:

Welcome to the Eastern Regional Limousin Sale hosted by Bill and Judy Daugherty at their beautiful Woodbrook Farms facility where you will be treated like gold. Expect the best in food, firendship, hospitality and an incredible set of sale cattle.

Bill and Judy along with their manager Alex Anderson are great promoters and supporters of the Limousin breed. They are avid students of the business and realize the importance of good cattle and a rigid breeding program. Utilizing those beliefs and a love for the business and people associated with that have escalated the Woodbrook program to new heights.

There will also be an outstanding set of guest consignors, the same rules apply for those folks...Great Cattle... Guaranteed.

Do not miss this event, come early and have an appetite for good food, friendship, and Limousin cattle. You will not be disappointed!

If you have any questions please let me know!

WOODBROOK & WULF, ABINGDON, VA

Homozygous polled. Without question Realtor has proven himself as one of the great "Power" Bulls in the breed. Full of muscle, growth, and capacity the Realtor progeny have been very well accepted across the breed and look to be the kind of cattle that are certainly right for the industry. Realtor sons and daughters are bold sprung, capacious, full of muscle and gentle. Realtor ranks in the top 1% for numbers that matter; Weaning weight, yearling weight, and docility. He is also in the top 2% for carcass weight and had a weaning ratio of 113 and an IMF Ratio of 127 at Wulfs where performance and carcass traits have been perfected. This is a proven breeding bull!

WOODBROOK & WULF, ABINGDON, VA

Homozygous black, homozygous polled. Uppermost was one of the most popular bulls on the Wulf Sale this year and we are fortunate to have him. Long bodied and full of growth he had some calving ease numbers and pedigree that we feel will work in our breeding program. He is in the top 5% of the breed for five different traits and top 10% for both calving ease direct and weaning weight. Outcross pedigree, yet solid. All of the Woodbrook bred heifers in this offering were in with Uppermost.

This is one of the best females ever raised at Woodbrook! Extremely deep, stout made, very correct in her structure with numbers off the chart, if you want a future donor tie into this one! This is a herd bull mama in the making. We are selling choice between Lots 1 and 1A and love both of them!

SPRING CREEK FARM, FAIRFIELD, VA

This is a three quarter sister to Lot 1A that came to Spring Creek along with her mother as one of the high selling pairs from the Heartland Sale last year. The dam of this heifer is a full sister to the great Myrlene who has established herself as one of the premier and most prolific donors for Wulfs, Myrlene is the dam of Shop Talk. Pedigree alone makes this heifer a sale highlight for the fall sale season.

PERF DATA BW: 72

BLALOCK LIMOUSIN, SALTVILLE, VA

IDENTIFICATION OF ANIMALS: (1) Each animal sold will have a readable tattoo corresponding to its registration paper. (2) Seller agrees to check all tattoos for accuracy prior to the sale. The buyer has the responsibility for rechecking the tattoos after taking possession and reporting any discrepancies to the seller immediately. (3) All animals to be sold will be identified by their official registration number, their tattoo and their registered name. If nicknames are used, they should be in addition to the other information. (4) The NALF board recommends that when any animal is sold, there is complete disclosure of any retained genetics in the form of pregnant recipients, frozen embryos or frozen semen.

REGISTRATION CERTIFICATES: (1) The seller of the animal will submit the original registration certificate with transfer information or an application for registration with transfer information on it so that a certificate can be produced by the Foundation and transferred to the new buyer. The seller must sign the back of the certificate on the application to authorize the transfer. (2) It is the responsibility of the seller to provide the North American Limousin Foundation with the buyer's complete name, address and membership number (if available) so that we can complete the transfer. It is important that the membership number be given if the buyer is already a member of NALF. (3) It is the seller's responsibility to provide the certificate or application, and transfer information to NALF within 60 days following the date of sale, and pay transfer and registration fees.

TERMS: (1) Terms of all sales are considered to be cash unless credit arrangements have been made prior to the sale between the buyer and the seller.

HEALTH: (1) On all animals sold, health tests will be announced at the sale or printed in the sale catalog. It is understood that health papers reflect the condition of the animal at the time of the sale but carry no further guarantee as to the future health of the animal. (2) Buyers having special health requests or who wish to take cattle into states with specific and rigid health regulations should inquire specifically about the health tests required for entry into their state. (3) All females sold are considered to be calfhood vaccinated for Brucellosis unless they are otherwise stated in the catalog or announced from the block. It is suggested that verification of vaccination be written on the health certificate.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. It shall be the obligation of the purchaser to see that trucking of the animal and care of the animal are taken care of prior to leaving the sale location.

ANNOUNCEMENTS: (1) Any change from the information that is printed in the catalog will be announced from the auction block. (2) All announcements made from the auction block take precedence over the printed catalog. (3) Catalogued lots not selling will be announced prior to the sale.

BREEDING GUARANTEE: (1) All animals are guaranteed to be breeders with the exception of: a. calves under twelve months of age; b. in the event of any injury or disease that occurs to the calf after sale or; c. gross negligence or willful misconduct on the part of the purchaser; d. females used in embryo transplant. (2) Bulls are guaranteed to be breeders at the time of sale or at 16 months of age if they are younger than 16 months at time of sale. Any bull which either settles cows by natural service and/or passes a fertility test made by a competent veterinarian is considered to be fertile. Any guarantee with respect to the ability to freeze semen shall be a separate agreement between buyer and seller. (3) Females sold as safe in calf have been exam-

ined by a competent veterinarian or other reproductive technician and are so guaranteed to be with calf. Cows with calf at side are considered breeders as indicated by the calf at side. (4) Any guarantee with respect to embryo transplant production shall be a separate agreement between buyer and seller.

OPTION AND PRIVILEGE OF RETURN OR ADJUSTMENT: (1) All claims for adjustments or refunds must be made in writing either within six months of the date of the sale or no later than six months after the animal reaches 18 months of age, whichever occurs last. (2) In the event that an animal is claimed to be a non-breeder, that animal must be returned to the farm of the seller in good condition and must have met the health requirements of the original sell state. The seller shall be entitled to six months trial following the return of the animal in which to prove the animal is a breeder, the seller shall, at the option of the buyer, replace the animal with another of equal value or refund the total purchase price. The return of the purchase price shall in all cases be deemed as full settlement.

Any expense incurred in transporting the animal that is claimed to be a non-breeder shall be the responsibility of the purchaser except that the seller shall be responsible for transportation costs in the excess of the distance between the purchaser's farm and the location of the sale. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation. (3) It is the obligation of the buyer and seller to negotiate any settlements on cattle that have not been properly presented at a sale. The selling of an animal constitutes a contract between buyer and sell and is not the responsibility or the right of the North American Limousin Foundation or of the sale management firm to settle disagreements between buyers and sellers of cattle that have not been properly presented.

The return of an animal at the expense of the purchaser with a refund of the purchase price made by the seller is in all cases considered to be a complete settlement. Other settlements which are negotiated between buyer and seller may be equitable to cover instances in which cattle are not as represented sale day, but that does not warrant complete return of the animal.

BLOOD TYPING FOR PARENTAGE VERIFICATION: All animals sold are guaranteed to be offspring of their recorded parents. Under the rules of NALF, all bulls born after January 1, 1991 that are to be used for artificial insemination or used naturally in a herd other than the owner of record must be parent verified by blood typing to both sire and dam. All females born after July 1, 1987 that are to be used for embryo transplant and all bulls born between July 1, 1987 and December 31, 1990 that are to be used for artificial insemination or used naturally in a herd other than the owner of record must be sire verified through blood samples available to purchasers upon written request by the purchasers so long as written request is received by sellers within 60 days after the date of the sale of the applicable animal. Proto test guaranteed normal if done within 60 days of sale date.

INSURANCE: Anyone wishing to insure their purchases may do so by contacting the sale manager or settling clerk.

MAIL BIDS: Mailed or telephoned bids will be handled in a most confidential manner if you are unable to attend the sale personally. By contacting a representative of the sale staff prior to sale day, you will enable us to assist you at ringside on sale day.
