Schott Limousin Ranch

*Presents it's 27th Annual
Limousin Bull Sale*

*Friday March 19, 2010
1:00 p.m. CST*

Mobridge Livestock Auction - Mobridge S.D.

Selling 51 Yearling

*Rugged, Performance Tested Bulls
Polled, Reds, Blacks & Lim-Flex and
Bulls for use on Heifers*

*Arrangements can be made for feeding and we will cooperate in delivery.
We will charge \$1.50 p/day for feeding starting March 26*

FOR MORE INFORMATION, CONTACT:

***James Schott, 27601 108th St., Mclaughlin S.D. 57642
www.schottranch.com (605) 823-4974 Email: jschott@westriv.com***

Cattleman,

We welcome you to our 27th Annual Sale. However you have supported us, your confidence in us and our program in the past, again we have to say a big "THANK YOU"

As I write this, the clipping of our bulls is complete. With all the L-O-N-G winter hair off, the bulls do look great. They are a good solid set of breeding bulls in a condition to hold together for you during and after breeding. You can put these bulls into your breeding program with confidence and only improve upon what you have already built.

For the past 27 years customer satisfaction has been a priority and will continue to be a priority in the future.

If we can assist you in any way with the selection of a bull, don't hesitate to call, or talk to us on sale day! All the bulls are guaranteed for the first breeding season. If you are unable to attend the sale and need assistance in purchasing a bull, we will help arrange a reliable buyer for your bull purchase. Feeding and delivery arrangements can be made as well. **We will charge \$1.50 per day for feeding starting March 26**

Thanks for your continued interest in the Schott Limousin Ranch program. Please feel free to stop by or call any time.

Thank You for your commitment and trust in us.
To all of you, have a GREAT 2010

Please Note:

Volume Discounts:

For 3 Bulls Purchased receive \$30 off each bull.

For 4 Bulls Purchased receive \$40 off each bull.

For 5 or more Bulls Purchased receive \$50 off each bull.

**The 27th Annual
Schott Limousin Production Sale**

will be held Friday, March 19, 2010, at 1:00 p.m.. CST at the Mobridge Livestock Auction in Mobridge, South Dakota.

Sale Day Phone: 605-845-3622.

Special Guests and Representatives:

Chisum Peterson - Auctioneer - Pakwana, S.D.
Dean Summerbell - Heartland Limousin Assn.
Kiley McKinna- Limousin World
Andy Peterson - Limousinlive.com
Tom Anderberg Owner Mobridge Livestock

BW - Birth Weight: We take birth weights on our cattle in order to give you some method of determining calving ease. However, a big calf will sometimes come very easy. We believe that it is how he is structured along with weight that determines calving ease.

WW - Weaning Weight: This is the weaning weight of the cattle adjusted to 205 days of age. Weaning weight is a good indication of early growth of a calf and milking ability of the mother.

Testicle Quality and Size Examination:

Our veterinarian has physically examined all testicals for size and quality. Adjusted 365-day weights and scrotal measurements will be furnished sale day.

Bidding: Each animal will be sold to the highest bidder without reserve.

Bidding Disputes: The auctioneer in charge will settle any disputes as to bids, and his decision on such matters will be final.

Phone/Mail Bids: Mailed or telephone bids will be handled in a most confidential manner if you are unable to attend the sale personally.

Terms: Terms of the sale are cash unless prior credit arrangements are established between buyer and seller. Settlements are to be made with the clerk immediately after the conclusion of the auction.

Liability: Each animal will be at the buyer's risk as soon as sold. Every precaution will be taken for the welfare of the cattle sold. Neither seller nor sales managers can be responsible for any accidents but every effort will be made to provide for the safety and comfort of those attending the sale

Health: All animals are eligible for Interstate shipment, except as otherwise announced from the sale block, Interstate health papers will be furnished for each animal. A Vet will be on hand sale day to transfer health papers to the new owners.

Breeding Guarantee: Cattle believed to be non-breeders are returned to the seller at the buyer's expense. The body condition of the cattle returning must meet the seller's satisfaction. Any bull found not to be a breeder will be taken back or sold by the pound and credit given toward the purchase of another bull next year.

Announcements: 1. Any change from the information that is printed in the catalogue will be announced from the auction block. 2. All announcements made from the auction block take precedence over the printed catalogue.

Contract: The above terms and guarantee shall constitute a contract between the buyer and seller of each animal, and no responsibility is accepted by the sale management.

The EPD's in this catalog reflect the new base used to calculate EPD's for Limousin cattle. They now have the same look as Angus EPD's. For commercial producers this rescaling helps simplify the use of Limousin EPD's by making the set of ranking Benchmarks similar for both breeds. While EPD's of the two breeds cannot be directly compared, if you know the benchmark within the Angus genetic evaluation, you also know the EPD benchmarks within the Limousin evaluation. Twice a year EPD's are recalculated to include any new data that has been submitted to NALF. This is done to keep them up to date and improve accuracies. With this in mind, expect EPD's to change on the animals you purchase. The EPD's for the Lim_flex calves reflect the combined EPD's of the Angus Assoc. and the current information in the Limousin EPD bank from the sires and dams of the breed. As this is a fairly new development, the accuracies will be low.

PERFORMANCE EPD's:

- CE:** Calving ease direct and is important when choosing sires to produce calves born easily. *"The higher the number the better"*
- BW:** Express difference in birth weight on the progeny of the bulls being compared
- WW:** Express difference in pounds at 205 days on the progeny of the bulls being compared
- YW:** Same as WW except compared at 365
- MA:** Predict the differences in weaning wts from daughters calves due to genes inherited from milk
- CEM:** Stands for Calving Ease Total Maternal and are important for choosing sires that produce replacement females that give birth to their first calf easily. The higher the number the better.
- SC:** Expressed in centimeters of scrotal circumference, and compare the difference expected in sons of the animal. Scrotal EPDs are a good indicator of age of puberty of both the sons and daughters of the animal
- DOC:** Reflects the probability that the offspring will inherit genes for acceptable behavior

Carcass EPD's:

- CW:** Express difference in pounds of carcass weight
- REA:** Express difference in square inches of rib eye area
- YG:** Indicates the differences for yield grade and cutability
- FAT:** Express differences in the inches of back fat
- MB:** Express differences in the amount of marbling or flecks of fat in the rib eye.

National Spring Limousin Bull EPD Averages:

<u>CE</u>	<u>BW</u>	<u>WW</u>	<u>YW</u>	<u>MA</u>	<u>CM</u>	<u>SC</u>	<u>Doc</u>	<u>CW</u>	<u>RE</u>	<u>YG</u>	<u>MB</u>

BULL GIVEAWAY!!!

Each time you buy a bull during the sale, your buyer number will be put into a hat. At the end of the sale a red and black bull will be brought into the ring. Then a random buyer number will be drawn from the hat. The buyer number drawn will get their pick of the two bulls.

The remaining bull will then be sold.

Be sure to get your buyer number prior to the sale!!

Comments from the Gallery:

Over the years we have used a 108, 112, and this year a 114 lb birth weight bull on our commercial cows. We take into consideration birth weight EPD's, Calving Ease Direct EPD, as well as bone structure (mid-fine boned) in our herd bull selection. We would never present a bull in our offering that we aren't confident using in our own herd. In the past years we have used bulls with birth weights like those referenced above on our 2nd calf heifers without any calving difficulties.

For decades crossbreeding (Hybrid Vigor) has been proven to add up to 40 pounds at weaning! Crossbred cows live 1.5 years longer! A limflex cow is second to none, in production. That comment comes from commercial ranchers who have them. That's money in your pocket at sale day!

LIMFLEX Defined:

With Lim-Flex hybrids, there are genetic options to fit almost every need.

* **Fullblood and purebred Limousin** provide a “full shot” of muscle and efficiency, and **Lim-Flex hybrids** offer a “blended shot” with added marbling and maternal abilities from the (black or red) Angus breed. With Limousin and Lim-Flex genetics, cow-calf producers can get the “just right” amount of Limousin influence for their specific crossbreeding needs. The name “Lim-Flex” represents Limousin genetics with added flexibility – the most significant strength of that powerful blend: flexible seedstock for simple, easily managed crossbreeding and the benefits of hybrid vigor; flexible market progeny that consistently hit dressing-percentage and yield- and quality-grade targets for mainstream, case-ready markets; and flexible females adapted for efficiency across a wide range of environments. Lim-Flex genetics are the answer to profitable, systemwide production of case-ready products.
